

APPLICATIONS:

Airport

Government

Industry

Defence

Prison

Business Center

Hotel

PRODUCT DESCRIPTION:

- o Automatic rising bollard AZ-BHA 220 is an automatic barrier system to control traffic.
- o Bollards integrated hydraulic ram inside. Compared to a traditional rising bollard with the hydraulic power unit, has easy installation, save budget, easy maintenance and several advantages. Connected with the control system and the main power.
- o AZ-BHA 220 automatic bollard cylinder material is 304 stainless steel, assure corrosion and rust resistance. Automatic bollard passed a series of performance tests to guarantee bollard stable work ability, including continuous 5000 lifting test, IP68 waterproof, dustproof test, temperature test, etc.
- o With reference of different types, the equipment lifting time could range from 3 to 5 seconds. With the emergency release system, the power outage or other emergencies can be artificially lower & release vehicles.

TECHNICAL SPECIFICATIONS:

Dimension	: ϕ 400 × 1150 mm
Bollard diameter	: 168 mm / 217 mm / 271 mm
Bollard thickness	: 6 mm / 8 mm / 10 mm
Height above ground	: 600 mm / 700 mm / 800 mm
Rising time	: 3-5 s
LED light	: Yes
Power Supply	: 220 V - 240 V AC
Collision grade	: K8
Protection level	: IP 68
Working temperature	: -40° C ~ +70° C
Material	: 304 stainless steel
Colour	: Customized
